

Rachele Chrimer

I have been a Support Planner with AB&B Services since 2013. I entered the special needs world approximately 16 years ago when my son Zachary was diagnosed with a rare disease. My son Zach passed away almost 5 years ago and shortly after I started working at AB&B. The special needs world is very close to my heart. I have lived a lot of what my families are going through and I think having that experience gives me an understanding of what families are looking for. When I'm not working I enjoy reading and hanging with my family.
